

Dr. Tim Bassett

Fellowship trained in spine surgery, Dr. Bassett has over 18 years of clinical and surgical experience in this region. He provides top quality service in the areas of acute cervical and lumbar disc herniations, instabilities, stenosis, deformities, fusion, fractures, tumors, surgical revisions, and new technologies including artificial disc replacement and minimally invasive surgeries. He also treats patients with non-spine orthopaedic needs including carpal tunnel, hand/finger surgery, peripheral nerve entrapments, and extremity fracture care. Additionally, Dr. Bassett provides quality surgical evaluation and assistance in planning non-operative management in cases not requiring surgery.

Dr. Bryan King

Fellowship trained in New York City in the area of Adult Reconstruction and Joint Replacement at the #1 rated Orthopaedic training hospital in the world, Dr. King provides superior service in the areas of hip, knee, and shoulder degenerative joint disease and joint replacement. Having graduated from the UAB Orthopaedic residency program, Dr. King's expertise also includes trauma care, fractures, sports injuries, and general orthopaedics.

Dr. Bassett and Dr. King operate at both Northport Medical Center and DCH Regional Medical Hospital and offer 24/7 coverage. We are a board certified regional subspecialty orthopaedic group serving patients from all over the southeast.

Training and experience in advanced surgical techniques, including minimally invasive approaches, allows us to tailor make an individual treatment plan specifically formulated for each patient.

Additionally, we are adept at reading and interpreting plain X-Rays, MRI's, CAT Scans, NCV, and EMG test results/reports in order to provide accurate and appropriate diagnoses and treatment planning.

On-site physical therapy by Rehab *at Work* is now also provided at our office in an adjoining 7,000 square foot, state-of-the-art facility. Rehab *at Work* is a therapist-owned rehabilitation company with 7 locations based in Columbus, MS. They are proud to now be a part of the Tuscaloosa community. Call them with any rehabilitation needs at (205) 752-0845.

Our goal is to get our patients back to healthy, active lifestyles through both surgical and non-surgical means. A tradition of caring, coupled with our highly trained medical staff, ensures our patients receive superior quality services in a warm and friendly atmosphere.
